

**RIDING  
the WAVES  
of  
CREATIVITY**

## CHALLENGE

### Everything Starts with Water

Earth has 370 quintillion gallons of water – but only 0.01% of that is freshwater that we can use. As climate change alters the global water cycle, this precious resource is in danger of becoming even more scarce. Your challenge is to create a visual tool to help students better understand the complete path of water across the entire Earth system and how the availability of this critical resource is affected by our changing climate.

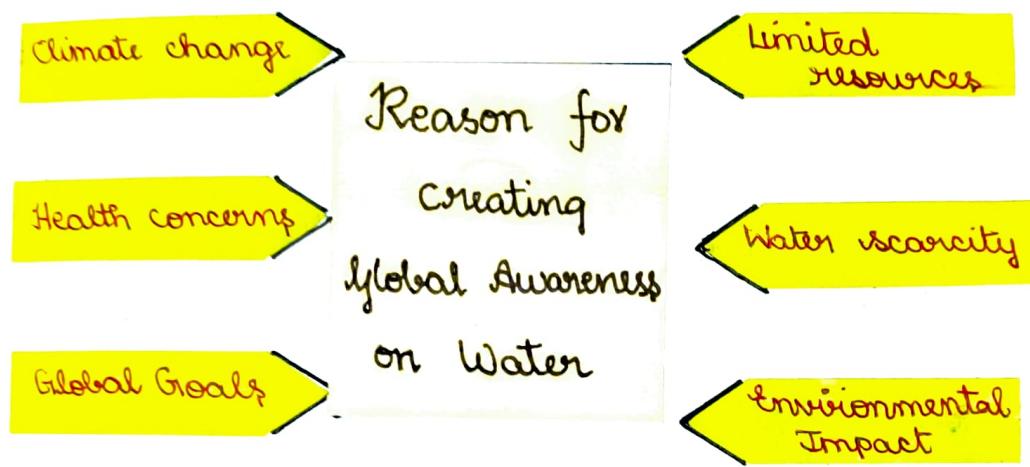

- Water covers about 71% of the Earth's surface.
- Out of 71%, only 3% of water is freshwater.
- Out of 3% of freshwater,
  - ↳ 2.5% of water is in the form of ice.
  - ↳ 0.75% of water is the groundwater.
  - ↳ Remaining water is in lakes, rivers and in the form of vapour.

MARCH - 22

WORLD WATER DAY

# EVERYTHING STARTS WITH WATER . . . !

Promoting awareness of these issues can lead to responsible water usage, conservation of forests, effects and informed decision making at both individual and societal levels to ensure the availability of freshwater.

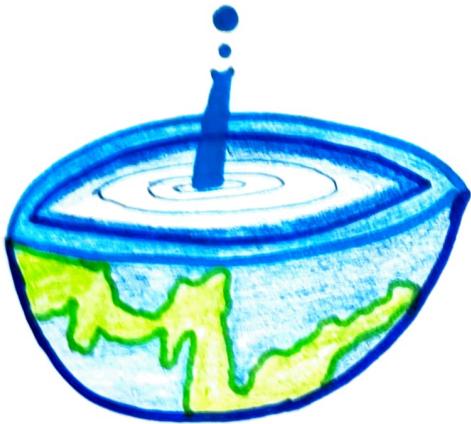

SHARE YOUR THOUGHTS . . .

# SAVE WATER !

MOTHER EARTH

has started to DRY

Please don't end up drying yourself !

Every single drop of WATER

is very precious....

Start saving it from Now...!

Use WATER sufficiently ,

Turn OFF taps immediately  
after use.

RAIN WATER HARVESTING is one

of the oldest and simplest method  
of conserving WATER when rains .

Use for Domestic purposes, if it is  
filtered in a right way it can  
also be used for drinking.....

Blue Green

YOUR IDEAS . . . . !

Water is an  
Inorganic compound  
 $H_2O$

It is transparent,  
tasteless, odourless  
and colourless.

71% of water

3% Fresh water

2.5% water is  
in Ice form

0.45% of water  
is groundwater.

Save  
Water

Conserve  
Water  
Save a million  
lives

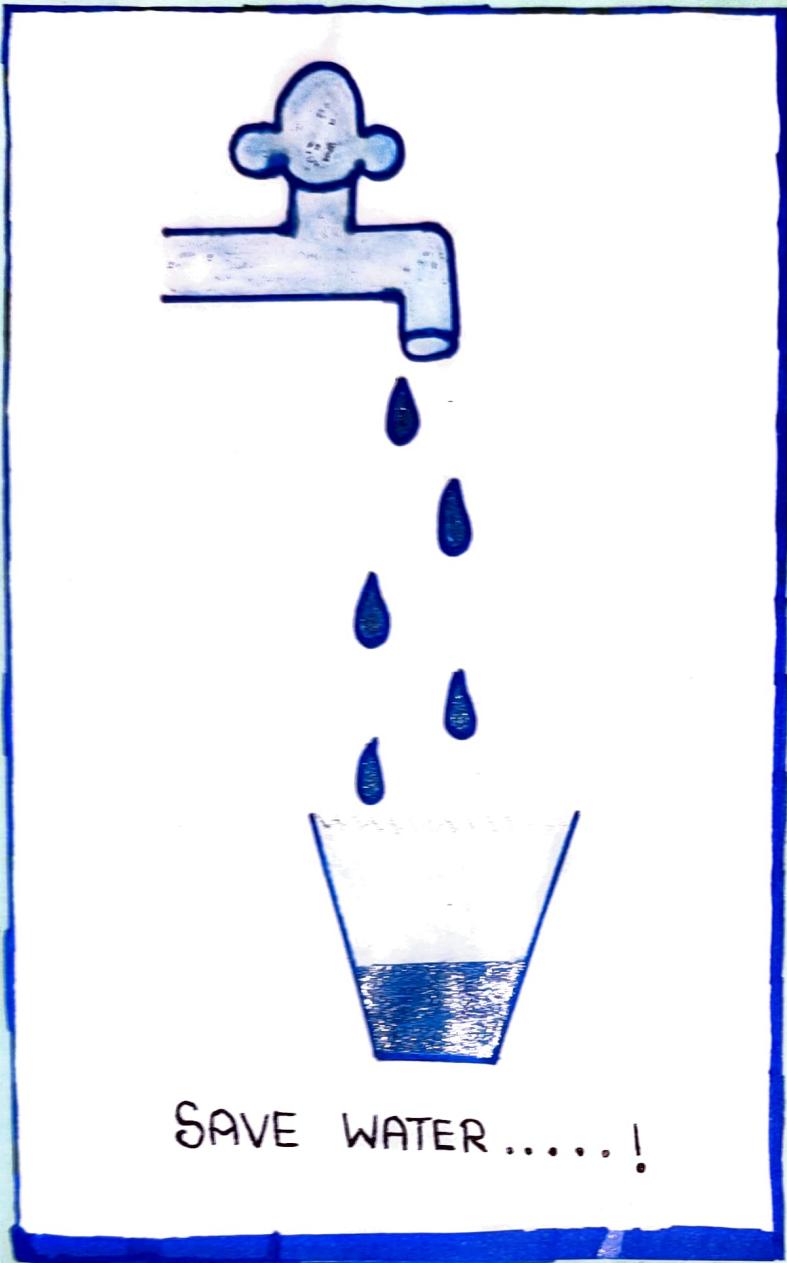

Save

Earth.

.

Every Drop  
Of Water  
Has A Story  
Of Life.

If everyone co-operates we can avoid  
water wasteage.

DRIP DROP ... DRIP DROP .....

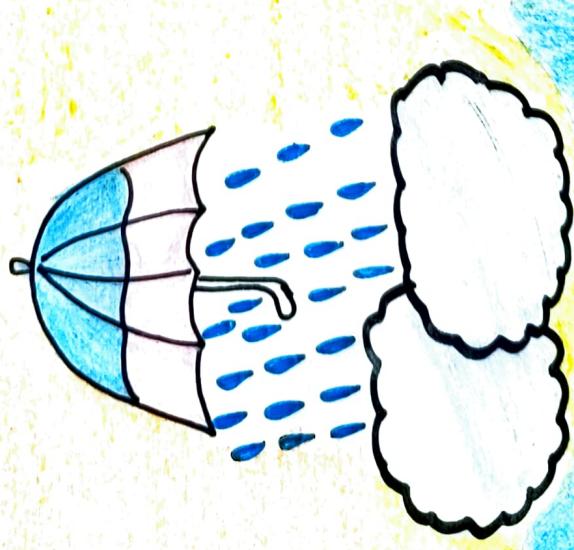

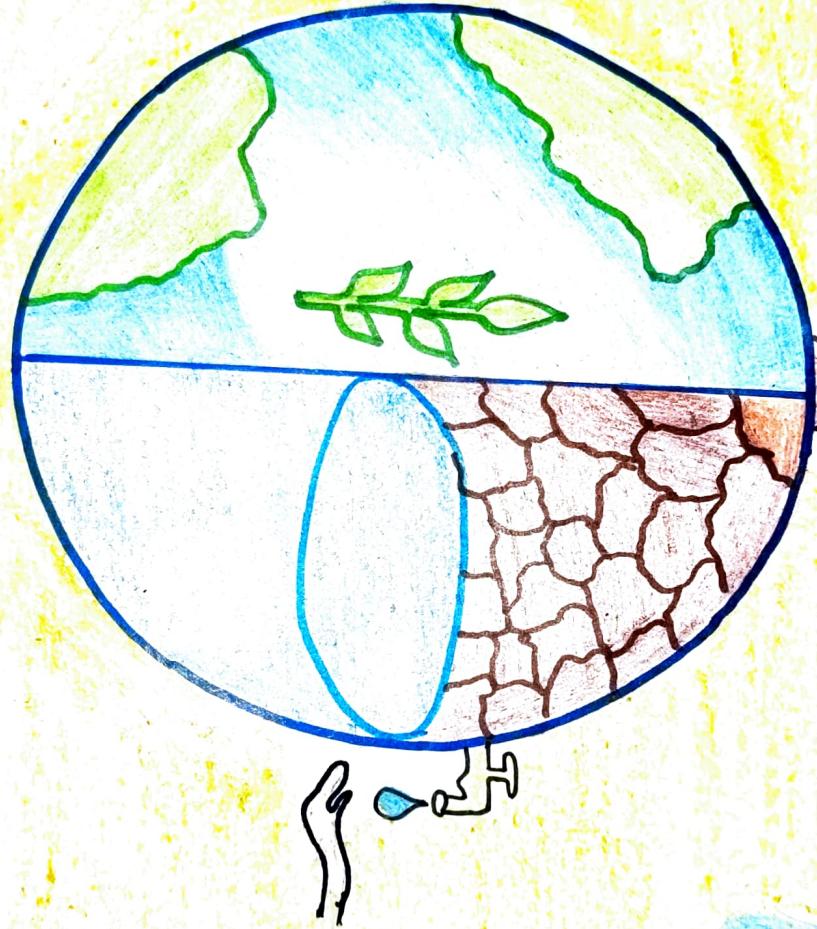

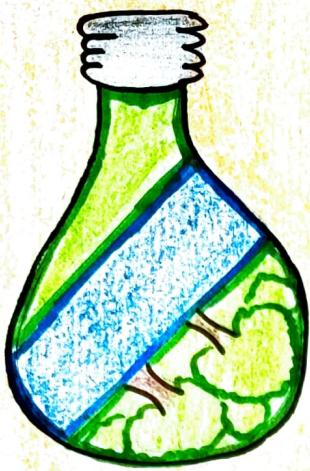

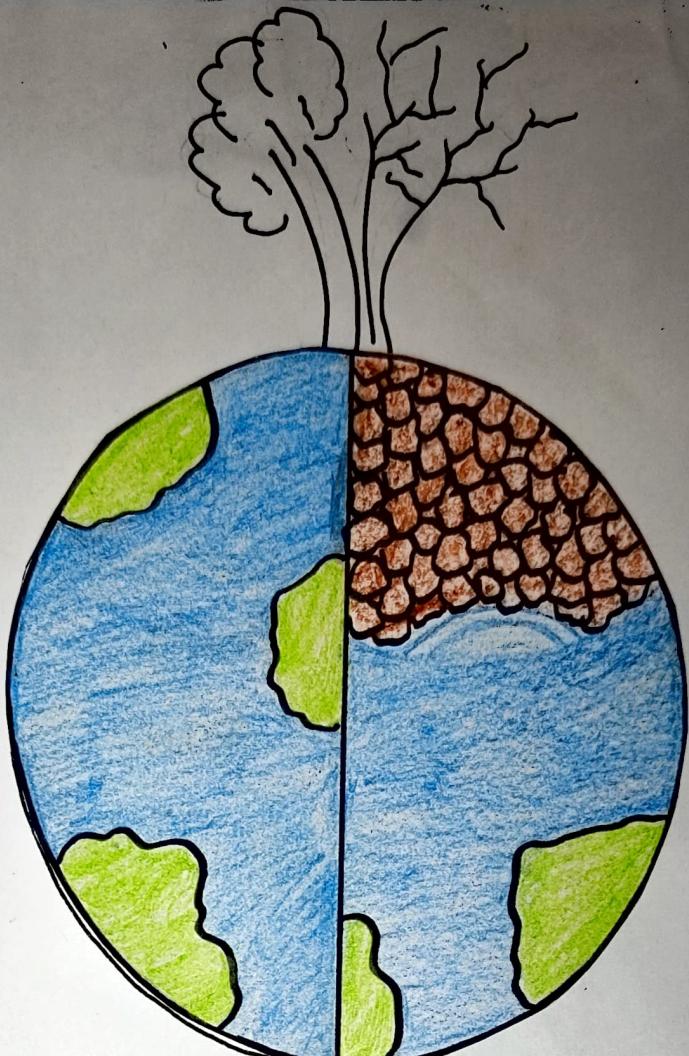

The clock must be stopped.

# SAVEWATER

DARE

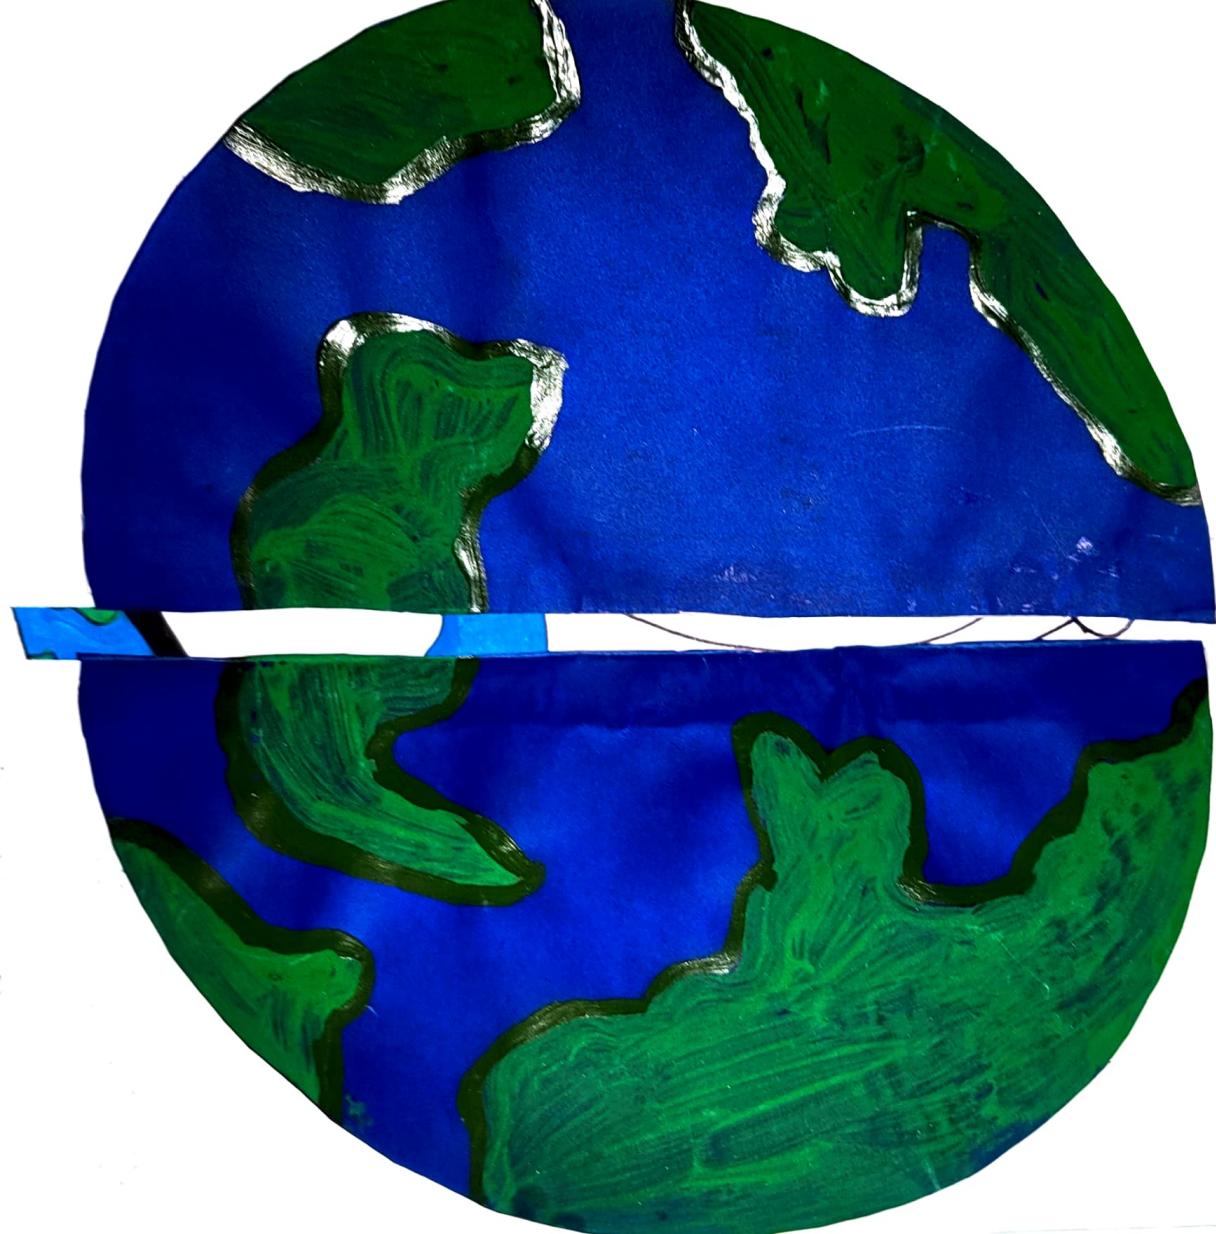

TRUTH

DARE

TRUTH

To  
do  
what  
you  
most  
want  
the  
most  
money,  
success,  
etc.

To do  
what's  
important

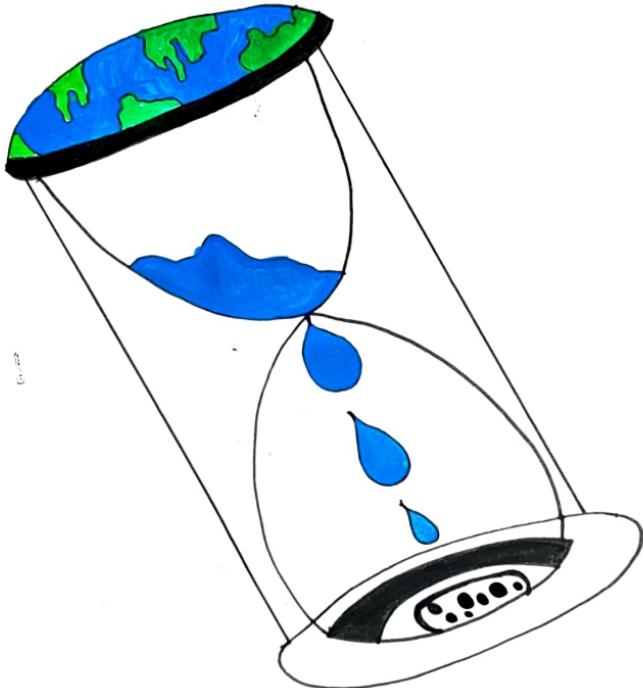

DON'T LET

WATER RUN IN

THE SINK.....

CONSERVE WATER!

Make every drop of  
water count.....

SAVE

WATER

LIFE

WILL BE

BETTER...!
